#### Subdivision

A permit is required to subdivide land.

Each lot must be at least 300 square metres.

A permit may be granted to create smaller lots:

- If the responsible authority is satisfied the lots will not be used for Accommodation; or
- Provided the average area of all lots is not less than 300 square metres. An agreement under Section 173 of the Act must be entered into with the owner of each lot created which ensures that the land may not be further subdivided.

The above lot size provisions do not apply to the subdivision of land in respect of which a permit was granted before 14 May 2007 to allow the development of that land so long as the form of the subdivision is consistent with the permitted development.
