- Transport of materials, goods or commodities to or from the land.
- Appearance of any building, works or materials.
- Emission of noise, artificial light, vibration, smell, fumes, smoke, vapour, steam, soot, ash, dust, waste water, waste products, grit or oil.

Application requirements

An application to use land must be accompanied by the following information, as appropriate:

- The purpose of the use and the types of activities that will be carried out.
- How land not required for immediate use is to be maintained.
- The likely effects, if any, on adjoining land, including noise levels, traffic, the hours of delivery and dispatch of goods and materials, hours of operation and light spill.
- If an industry or warehouse:
 - The type and quantity of goods to be stored, processed or produced.
 - The likely effects on adjoining land, including air-borne emissions and emissions to land and water.
 - Whether a Works Approval, or Waste Discharge Licence is required from the Environment Protection Authority.
 - Whether a notification under the Occupational Health and Safety (Major Hazard Facilities) Regulations 2000 is required, a licence under the Dangerous Goods Act 1985 is required, or a fire protection quantity under the Dangerous Goods (Storage and Handling) Regulations 2000 is exceeded.

Decision guidelines

Before deciding on an application to use land, in addition to the decision guidelines in Clause 65, the responsible authority must consider, as appropriate:

- The potential effects on the airport operation, airport infrastructure or airport reserve.
- The effect that the use may have on nearby existing or proposed residential areas or other uses which are sensitive to industrial offsite effects.
- The drainage of the land.
- The availability of and connection to services.
- The effect of traffic to be generated on roads.
- The interim use of those parts of the land not required for the proposed use.
- The frequency of any proposed event.
- The impact of hours of operation on any proposed use on neighbouring areas, particularly with respect to night time use.
