3.0 Maximum building height requirement for a dwelling or residential building

14/12/2017
C159

Building height must not exceed 13.5 metres.

A permit cannot be granted to vary this requirement.

This does not apply to:

Land where the slope of the natural ground level at any cross section wider than 8 metres of the site of the building is 2.5 degrees or more, in which case building height must not exceed a height of 14.5 metres.

Land subject to the Special Building Overlay, where the maximum building height may be exceeded by no more than the minimum additional building height required by the overlay provision.

The maximum building height may be exceeded for architectural features and service equipment including plant rooms, lift overruns, structures associated with green roof areas and other such equipment if all of the following are met:

- No more than 50% of the roof area is occupied by the equipment (other than solar panels).
- The equipment is located in a position on the roof so as to minimise additional overshadowing on neighbouring properties and public spaces.
- The equipment does not extend higher than 1.2 metres above the maximum building height.
- The equipment and screening is integrated into the design of the building to the satisfaction of the responsible authority.
