Bays

Objective

To improve the environmental health of Port Phillip Bay and Western Port and their catchments.

Strategies

Reduce major environmental pressures associated with urban growth and development in Port Phillip Bay and Western Port catchments by:

- Requiring growth area planning to protect significant natural assets.
- Improving the quality of stormwater entering waterways, particularly from construction sites and road development.

Improve waterway management arrangements for Port Phillip Bay and Western Port catchments.

Protect coastal and foreshore environments and improve public access and recreation facilities around Port Phillip Bay and Western Port by:

- Focussing development in areas already developed or in areas that can tolerate more intensive use.
- Requiring coastal planning and management to be consistent with the *Victorian Coastal Strategy* (Victorian Coastal Council, 2014).
- Managing privately owned foreshore consistently with the adjoining public land.
