Use of land for a dwelling

A lot used for a dwelling must meet the following requirements:

- Access to the dwelling must be provided via an all-weather road with dimensions adequate to accommodate emergency vehicles.
- The dwelling must be connected to a reticulated sewerage system or if not available, the waste water must be treated and retained on-site in accordance with the State Environment Protection Policy (Waters of Victoria) under the Environment Protection Act 1970.
- The dwelling must be connected to a reticulated potable water supply or have an alternative potable water supply with adequate storage for domestic use as well as for fire fighting purposes.
- The dwelling must be connected to a reticulated electricity supply or have an alternative energy source.

These requirements also apply to a dependent person's unit.

35.05-3 Subdivision

05/09/2013
VC103

A permit is required to subdivide land.

Each lot must be at least the area specified for the land in a schedule to this zone. If no area is specified, each lot must be at least 8 hectares.

A permit may be granted to create smaller lots if any of the following apply:

- The subdivision is the re-subdivision of existing lots, the number of lots is not increased, and the number of dwellings that the land could be used for does not increase.
- The subdivision is by a public authority or utility service provider to create a lot for a utility installation.

35.05-4 Long term lease or licence for accommodation

05/09/2013
VC103

A permit is required to lease or license a portion of a lot for a period of more than 10 years if the portion is to be leased or licensed for the purpose of Accommodation.

Each portion of a lot leased or licensed for the purpose of Accommodation must be at least the minimum subdivision area specified for the land in a schedule to this zone. If no area is specified, each portion of a lot leased or licensed for the purpose of Accommodation must be at least 8 hectares.

35.05-5 Buildings and works

05/09/2013
VC103

A permit is required to construct or carry out any of the following:

- A building or works associated with a use in Section 2 of Clause 35.05-1. This does not apply to:
 - An alteration or extension to an existing dwelling with a floor area of no more than the area specified in a schedule to this zone or, if no area is specified, 50 square metres.
 - A rainwater tank.
- Earthworks specified in a schedule to this zone, if on land specified in a schedule.
- A building which is within any of the following setbacks:
 - 30 metres from a Road Zone Category 1 or land in a Public Acquisition Overlay to be acquired for a road, Category 1.
 - 20 metres from a Road Zone Category 2 or land in a Public Acquisition Overlay to be acquired for a road, Category 2.
 - 10 metres from any other road.
 - 5 metres from any other boundary.
 - 30 metres from a dwelling not in the same ownership.
 - 100 metres from a waterway, wetlands or designated flood plain.

35.05-6 Decision guidelines

05/09/2013
VC103

Before deciding on an application to use or subdivide land, lease or license a portion of a lot for a period of more than 10 years if the portion is to be leased or licensed for the purpose of Accommodation, construct a building or construct or carry out works, in addition to the decision guidelines in Clause 65, the responsible authority must consider, as appropriate:

General issues

- The State Planning Policy Framework and the Local Planning Policy Framework, including the Municipal Strategic Statement and local planning policies.
- Any Regional Catchment Strategy and associated plan applying to the land.
- The capability of the land to accommodate the proposed use or development, addressing site quality attributes including soil type, soil fertility, soil structure, soil permeability, aspect, contour and drainage patterns.
- How the use or development relates to agricultural land use, rural diversification and natural resource management.
- Whether the site is suitable for the use or development and whether the proposal will have an adverse impact on surrounding land uses.
- The need to protect the amenity of existing residents.
- The need to minimise adverse impacts on the character and appearance of the area or features of architectural, scientific or cultural heritage significance, or of natural scenic beauty or importance.

Rural issues

- The maintenance of agricultural production and the impact on the local rural economy.
- The need to prepare an integrated land management plan.
- The impact on the existing and proposed rural infrastructure.
- The potential for the future expansion of the use or development and the impact of this on adjoining and nearby agricultural and other land uses.
- Protection and retention of land for future sustainable agricultural activities.

Environmental issues

- The impact of the use or development on the flora and fauna on the site and its surrounds.
- An assessment of the likely environmental impact on the natural physical features and resources of the area and in particular any impact caused by the proposal on soil and water quality and by the emission of effluent, noise, dust and odours.
- The need to protect and enhance the biodiversity of the area, including the retention of vegetation and fauna habitat and the revegetation of land including riparian buffers along waterways, gullies, ridge lines, property boundaries and saline recharge and discharge areas.
- How the use or development relates to sustainable land management and the need to prepare a sustainable land management plan.
- The location of on site effluent disposal areas to minimise impact of nutrient loads on waterways and native vegetation.

Design and siting issues

- The need to minimise adverse impacts of the siting, design, height, bulk, colours and materials to be used on major roads, landscape features and vistas.
- The location and design of existing and proposed infrastructure services including gas, water, drainage, telecommunications and sewerage facilities which minimise the visual impact on the landscape.

- The location and design of existing and proposed roads and their impact on the landscape and whether the use or development will require traffic management programs.

Primary school or secondary school issues

- Access being provided via an all-weather road with dimensions adequate to accommodate emergency vehicles and not rely on local residential streets for access.
- Access by public transport, or if public transport is not available or adequate, transport may be provided by the school. Where transport is provided by the school the parking of buses should be accommodated on site.
- Connection to a reticulated sewerage system or if not available, the waste water must be treated and retained on-site in accordance with the State Environment Protection Policy (Waters of Victoria) under the Environment Protection Act 1970.
- Connection to a reticulated potable water supply or an alternative potable water supply with adequate storage for school use as well as for fire fighting purposes.
- Connection to a reticulated electricity supply or an alternative energy source.

35.05-7 Advertising signs

31/10/2006
VC43

Advertising sign requirements are at Clause 52.05. This zone is in Category 3.

Notes: Refer to the State Planning Policy Framework and the Local Planning Policy Framework, including the Municipal Strategic Statement, for strategies and policies which may affect the use and development of land.

Check whether an overlay also applies to the land.

Other requirements may also apply. These can be found at Particular Provisions.
