

17/10/2013  
C170**SCHEDULE 1 TO THE INCORPORATED PLAN OVERLAY**

Shown on the planning scheme map as **IPO1**.

**32-68 Mollison Street and 61-69 William Street, Abbotsford July 2013****1.0****Purpose**17/10/2013  
C170

To facilitate the use and development of the land at 32-68 Mollison Street for office, commercial and compatible uses that will provide jobs and business activity for the local area.

To encourage the use and development of land at 61-69 William Street, Abbotsford for predominantly residential purposes.

**2.0****Conditions and requirements for permits**17/10/2013  
C170

An application to construct a building at 61-69 William Street must include a design response to the satisfaction of the responsible authority. The design response is to contain information on the following:

- How the building respects the interface with the Denton Hat Mills building (56 Nicholson Street, Abbotsford) and the residential interface to the south.
- How upper levels (above 5 metres) are setback from Little Nicholson Street to reduce the impact of new built form on existing residential apartments and to ensure access to sunlight.
- The provision of safe and efficient pedestrian and vehicle access to the building.
- A traffic report that demonstrates the safe entry and exit of vehicles from the property to William Street only.

An application to construct residential dwellings at 61-69 William Street must include a noise assessment and design response to the satisfaction of the responsible authority to ensure industrial properties north of Mollison Street are not adversely affected by reverse amenity impacts.

An application to construct a building at 32-68 Mollison Street must include:

- A design response to the satisfaction of the responsible authority having regard to the proximity of properties to the north in a different zone including the potential impacts from noise, light, odour and 24 hour traffic movements.
- An active ground floor frontage incorporated into the design of the car park building at 32 Mollison Street.

An application that includes residential or other sensitive uses should:

- Minimise the potential impacts of local business (including noise, light, odour and 24 hour traffic movements), in the design and construction of buildings.
- Include design and noise attenuation measures that achieve the noise levels (within any noise sensitive areas) that are calculated by applying the method in Schedule B of State Environment Protection Policy No N-1 'Control of Noise from Commerce, Industry and Trade' (SEPP N-1) for calculation of noise limits.
- Locate, and if necessary screen, private open spaces, including balconies, to attenuate industrial noise to meet the requirements of SEPP N-1.
- Incorporate design measures that minimise the potential impact of non-routine odour emission.

**3.0**17/10/2013  
C170**Decision guidelines**

Before deciding on an application the responsible authority must consider, as appropriate:

- The impact of the height, bulk, design and appearance of the building or works on the character and amenity of the surrounding area.
- The extent to which environmentally sustainable design features and practices are adopted.
- The relationship of any new buildings to the street including entrances that provide opportunities for active or visual engagement.
- The design of the car park building including how it relates visually to the street environment and the extent of activation of the frontage at street level.
- Whether new buildings provide an attractive and engaging edge to the street environment through landscaping and/or architectural design features.
- The visibility and layout of the development, and the extent to which screening of mechanical plant equipment is required.
- Any reverse amenity impacts of the proposal on existing and on-going operations of existing commercial and industrial activity in the adjoining and surrounding area.
- The effectiveness of new residential development and other noise sensitive uses in protecting their own amenity where potentially affected by existing commercial and industrial activity.
- Whether the proposed development has regard to the heritage values of the site as applicable.

**4.0**17/10/2013  
C170**Requirements for incorporated plan**

The incorporated plan must show:

- Building heights for each area in storeys, and metres or RLs.
- Building features to be retained.
- Vehicle entry and exit points for the site.
- Proposed land uses for the subject sites.
- Land use interface management.
